

PRODUCT DESCRIPTION

For preserving injection moulds, stamping dies and stock items.

ADVANTAGES

- » Highly water-repellent
- » Effective even when applied thinly
- » Long-term corrosion protection
- » Protective substance inside the mould disappears after a few shots
- » Compatible with lubricants
- » Visible as greenish film on blank metal surface

APPLICATION

Clean and degrease spraying point thoroughly (VCM 20). Shake can well before use. Apply evenly and thinly. A thicker layer increases the corrosion protection.
